Districts of the Evangelical Synod of
North America and their Summaries

for the Year **1930**

I N T R O D U C T I O N

IN submitting this year's Statistical Report, we are well aware that last year's report, while it met with a great deal of approval, also called forth a certain amount of criticism. This criticism is in itself an approval of the new forms because it shows that they were much more widely read and used than ever before. Some of the criticism was deserved and we endeavored to profit by it and improve the Statistical Report. Some of it was based on a misunderstanding of the universally accepted requirements of statistical forms and the particular use to which they are to be put. This criticism we are sure will gradually die out as the value of statistics in a comprehensive and easily accessible form is more generally recognized.

The most commonly heard criticism is in regard to the expense. We wish to assure the members of the Evangelical Synod that the expense of printing the statistics in the newer form will be little if any more than in the old form when once the experimental stage has been passed and the new form has become fully standardized. It is also possible to further reduce the cost by printing only an excerpt and total sheet of the statistics in the year in which no conferences are being held, if this procedure meets with the approval of the districts.

Respectfully submitted by
THE GENERAL COUNCIL AND THE BOARD OF DIRECTORS
through the office of the Executive Secretary.
